BUCHANAN IN THE DEATH CHAIR.

Wife Poisoner Electrocuted at Sing Sing Prison.

RENT OF 1,740 VOLTS.

richest and Most Successful Operation of the New Plan of Execution.

SING, N. Y., July 1.—Between the cell which Dr. Buchanan occupied and the execution room there is a door three feet wide, and as far as on the edge of the iron cot he could have had the guards ring the room and Electrician Davis, his wires ready. This made him nervous and the guards whether they were doing what would avoid an unpleasant scandal, rid himself of a person who loathed and came into possession of the iron door. After the funeral he abandoned himself to unseemly levity and plunged into a round of dissipation, and that on May 16 he had re-

to himself occasionally. His nerves increased as the minutes went by, until he was so nervous he entered the death chair. A guard and another wished that he had remained seated, but he had cremated her and had made preparations for flight to South America.

Experiments were made to establish the fact that if morphine and chloroform were used the latter would neutralize the former in so far as external respiration was concerned. This was to explain why the doctors called in at the death scene had failed to recognize from the symptoms the presence of morphine, which was injected into the system.

On the 15th of August, Buchanan was sentenced by Recorder Smith to be electrocuted the week beginning October 2, but he was granted a reprieve by Sing Sing. Death of the law prevented the carrying out of the sentence until to day.

Now, before, in the history of condemned criminals in this country, there had been such a determined and untiring legal fight made to save or prolong the life of condemned men as that which has been made in behalf of Dr. Robert W. Buchanan, the convicted wife-poisoner.

Buchanan has practically been on the witness stand of the court less than three times since he was sentenced. On two of these occasions his life was prolonged by the action of the Governor, who granted a reprieve of one week at the urgent solicitation of the prisoner's wife, and the other reprieve, owing to legal technicalities, of over a month. In the case of the Supreme Court and the British Ambassador, Sir Julian Pauncefote.

His trial cost the county about \$20,000. Expenses were paid by each side, and not one cent was left unturned by the

defendant.

In North America the United States are with us to a man. Florida is particularly for Cuba. So we are confident of winning our cause and establishing a substantial republic at an early day. We consider our independence now as good as accomplished.

We wish again to thank the press and the public for their sympathetic and letters of encouragement. We shall obey the laws and in obedience to President Cleveland's proclamation, do nothing contrary to the will of the Government.

QUESADA SEES VICTORY AHEAD.

He Says the Insurgents Occupy Nearly All the Island.

CUBA PRACTICALLY THEIRS.

During July and August Gen. Campos Will Lose 10,000 Men From Yellow Fever Alone.

NEW YORK, July 1.—The World publishes an address from Gen. Rafael De Quesada to the American people. Among other things he says:

"Many misstatements regarding the Cuban situation have been made. They should be corrected. I have received word from Cuba to-day that Gen. Maceo is not a prisoner."

"He is at the head of his forces and confident of speedy success."

"I wish to express my gratitude to the American people. They are fighting a system of infamy and oppression. We are fighting the Spanish Government, not the Spanish people. I find myself sympathizing with them more than a thousand letters from leading citizens of the United States expressing sympathy and offering aid in behalf of free Cuba. I have no allusion to the fact that we cannot violate the law. They must wait until we are recognized as belligerents by the Spanish Government. Then we shall have all the means of arms we need, and the war will end quickly."

"It may say, however, that Cuba is practically ours. Victory is already in sight. We occupy nearly all the island. The Spanish soldiers have the towns and the Spanish troops stand on."

"These statements to the contrary, the death rate among the Spanish troops is appalling. The reinforcements asked by Gen. Campos are to fill regiments. The Spanish are sweeping away the soldiers at increasing speed. Gen. Campos, two weeks ago had a total force of 40,000 men. We have 20,000 armed soldiers in the field, but many more are ready to go to the front and fight as soon as the rebels have guns and ammunition. The situation in Cuba has changed within a week. The yellow fever boys have men in a day than are killed in a month. It is safe to say that during July and August Gen. Campos will lose 10,000 men from yellow fever alone, and more arms and ammunition. We could dispose of 20,000 cartridges at once. The men to use them are not likely to march at an hour's notice."

"Many of the great services of his

services were of inestimable value. That night he died filling his place. But by July 1 his successor will be installed. Meanwhile we will be recognized as conquerors of thousands of the enemy and we shall conquer. We shall soon be recognized as conquerors of the republic will be proclaimed very soon. The first country to recognize our new government will be Chile next Peru and then Colombia and next Argentina and the South American countries are all with us. We have had many more complications just now to make any official demonstration for Cuba. Chile detests the United States and we have entire sympathy. Her wealthy aristocracy and young men have held many meetings recently and sent us substantial money.

"In North America the United States are with us to a man. Florida is particularly for Cuba. So we are confident of winning our cause and establishing a substantial republic at an early day. We consider our independence now as good as accomplished.

We wish again to thank the press and the public for their sympathetic and letters of encouragement. We shall obey the laws and in obedience to President Cleveland's proclamation, do nothing contrary to the will of the Government.

Provisional Government.

NEW YORK, July 1.—El Porvenir, the Cuban newspaper which will be published in New York this week contains a letter which was brought from Cuba by one of the refugees who arrived on the steamship Santander.

The letter, which was smuggled from Maceo's camp, is dated June 10 and signed by Gen. Antonio Maceo. At the time of writing, "he says," "preparations are making for the reorganization of the provisional government." He adds that he has been in contact with the delegates for the presidency. The formation of the government will consist of a Secretary of War, a Secretary of Foreign Relations and a Secretary of the Interior.

Torpedo Boats for Cubans.

NEW YORK, July 1.—Private telegraphic advices from Cuban statesmen say the Cubans are expecting three torpedo boats from France. Not until their arrival will the Cubans begin what it is intended to be their most effective work against the Spaniards to kill Gen. Gomez was recently hanged to a tree and a sign was pinned to his clothes with these words: "For being a traitor to his country."

YUCATAN'S FABLED CITY.

The Troops Who Are Marching Against the Indians May Find It.

Special to the Post-Dispatch.

MEXICO CITY, July 1.—The inhabitants of the State of Yucatan are enthusiastic over the reinforcing of the Federal troops there and the orders to move against the rebel Indians encamped near the Belize (British Honduras) border. People are offering their money and services to the government.

Yucatan has been having an Indian war for great many years, and the Indians have been placed in the swamps and mountains in a region unexplored by white men; it has been difficult to follow them. These Indians are cannibals and have been known to eat their own families.

ARING FOR THE PARADE.

Light Sunshine Dries Out the Dampness of Sunday's Rain and the Boys in Blue Hopeful of a Gay Week.

Bright sunshine and cool, delightful weather gladdened the hearts of 2,000 United States regulars and militiamen in camp at the Fair Grounds Monday morning. After the fearful drenching the soldiers boys received Sunday the warm rays of the sun were welcome, and before noon tinges of

GETTING READY FOR THE DRILL

summons, which had begun to rack the nerves of the old-timers, were completely dispelled, and the same gaiety as gay and happy as 15-year-old girls.

By 10 o'clock the grounds had begun to dry and the parade grounds and camps were in fine condition. A more orderly and compact collection had never been seen, in spite of the threatening aspect of the weather during the morning hours.

Over half of the grand stand in the center of the race track, the soldier boys have built their city of white. Hundreds of tents ranged in regular rows, with narrow paths between them, were completed. Had the west half of the inclosure, within the track, South of the track, on the west side of the grand stand, the United States Regulars had their headquarters pose the two cavalry companies, B and K from Jefferson Barracks, under command of Captains Chase and Hunter.

TELL-TALE FACES.

PINCHED-AND CAREWORN,

As Worn by Many American Women.

[SPECIAL TO OUR LADY READERS.]

The "tell-tale face" is worn by many American women, and is a symptom of symptoms, a signal of distress.

While women do all in their power to hide their condition, the practised eye soon detects the trouble.

When pains and aches are felt in every part of the body, when faintness, dizziness, and that bearing-down feeling prevail, when loss of flesh and appetite are reducing flesh daily, when the society of friends is irksome, and the hopeless "blues" predominate, then the face is pinched, haggard, and careworn, and prompt relief is necessary, or a beautiful life will be sacrificed.

An American woman, Lydia E. Pinkham, an expert of women and their diseases, twelve years ago succeeded

in producing an absolute cure for all diseases of women. Lydia E. Pinkham's Vegetable Compound stands to-day as it did then, pre-eminent.

Mrs. H. Wampler, of Baraboo, Wis., whose letter we were permitted to publish last year, writes that she hopes Mrs. Pinkham will continue to use her name, as the publication in newspapers of the account of her own wonderful cure and relief from years of misery has been the means of influencing many suffering women to try Lydia E. Pinkham's Vegetable Compound, and become well like herself. Mrs. Wampler feels, and rightly, too, that in this way she is doing a great good.

DAVIDSON SURRENDERS.

He Makes His Bond and the Case May Dropped.

The sensational hold-up and robbery of Broker James R. Hamlin at 425 West Morgan street last Thursday night will from the present outlook, never be fully explained.

R. M. Davidson was arrested, charged with stealing a suit of clothes from Louis Haye, 720 O'Fallon street. He was convicted and sentenced to three months in the Workhouse.

June 21, 1895, he was sentenced to sixty days in the Work-house for holding up a gold watch and robbing him.

December 6, 1895, he was arrested on suspicion of having burglarized the Broadway and Morgan street, but the grand jury failed to indict him.

February 6, 1896, he was sentenced to four months for picking the pockets of Miss Bertha Sargent of 345 South Jefferson avenue.

He is also said to have "done time" for breaking and entering.

At the time of his escape, Horrocks, together with Frank Breman, were in the 11th Street saloon, across the street from the Germania Theater, on the night of June 16, on a street car, and robbing him of a gold watch valued at \$100.

Horrocks was captured in the Exchange door. During his absence his friends had planned to straighten out his difficulties.

He was given a fortune on "Change" and a man of many friends. He was surrounded by the "boys" and shortly after a party adjourned to a room in a hotel. Hamlin was the first to speak, and it is said, offered to withdraw his case.

Davidson fairly hugged him. "I must have been crazy when I did that."

Then the party, accompanied by Mr. Hamlin, went to the Four Courts and in the Honor's private office the bond for \$500 was drawn and signed. The party then returned to the Exchange.

A Post-Dispatch reporter accosted David

on the floor:

"I have been given the worst of this deal in the papers," said he, "but my friends know it all. I will let the story go as it was originally given, but," he added, "I never drew a gun on anyboby."

"But it doesn't look right for me to make any explanation," he said. "I know that's all I can tell you to Mr. Hamlin."

Mr. Hamlin was equally uncommunicative.

"I must have been crazy when I did that."

APPRECIATION OF GOLD.

That was a very interesting piece of news which was cabled to the Sunday Post-Dispatch by its London correspondent Saturday night. The Chancellor of the Exchequer in the new Salisbury Cabinet is Sir Michael Hicks-Beach. In his former Cabinet that important position, which corresponds with our Secretary of the Treasury, was held by Mr. Goschen. The statement has been industrially circulated by the gold monetarists that Mr. Goschen was "turned out" in the new Cabinet because of his metallic views. It turns out that the Chancellor of the Exchequer is himself a bimetallist.

Our correspondent quotes from a speech made recently at a dinner in Bristol, in which Sir Michael Hicks-Beach is reported in a local newspaper as saying, "He thought it was proved that gold had appreciated in recent years. He thought it clear that the appreciation of gold in the main was an injury to the country, and he should like to see an international attempt—for so only could it be successful—to diminish the use of gold in coins, and increase the use of silver."

The significance of this speech is that it only reveals the fact that the chief officer of the new British Cabinet is a bimetallist, but that it also discloses the assertion of the American standard men, including Secretary Eliot, that gold has not appreciated.

The demonetization of silver, British statesmen seem to take a more serious view than our own of their obligation not to deceive the people in their public utterances, and Sir Michael Hicks-Beach refuses to make a point for the British financial policy by ignoring a fact so palpable as the appreciation of gold in relation not only to silver but to all other commodities whose price has not been enhanced by exceptional or artificial conditions.

Equally significant with the above utterance is the new Chancellor of the Exchequer in the fact that the Salisbury ministry contains in important positions two bimetallists—Mr. Baileys, and Mr. Chapman. The good cause progresses even in stolid, debt-owning England.

THE SUBWAY QUESTION.

The review of the subway situation in yesterday's Sunday Post-Dispatch shows it to be in more satisfactory shape than it has been since the first blunder in granting a private subway franchise and in making ill-advised contracts touching subways was made by the Municipal Assembly.

It is agreed by the best-informed city officials that the decisions of the Supreme Court on the charters of the St. Louis Underground Service Co. and the Laclede Gaslight Co. put the city again in a position to settle the subway

angel, who, as President, has given the matter fair expression. When he said: "I would do what I could."

subways. There are difficulties, and we do not think they are insurmountable. Some general plan of settling this whole question must be devised as quickly as possible."

MAKING A BAD BARGAIN WORSE.

Commenting upon the modification of the bond contract, the New York World makes the strong point that in releasing the syndicate from the obligation to import the remaining gold the Government has consented to weaken the position of the Treasury. The object of the bond issue and contract was not only to stop the exportation of gold but to secure more gold. By permitting the syndicate to draw on the domestic reserves of gold outside the Treasury the probability of fresh invasions upon the Treasury has been greatly increased.

The necessity of settling the question of settling it promptly is manifest. The wires must be put underground and there is constant danger that this pressing need, combined with the vigorous efforts of wire corporations to secure franchises, may lead the city into another blunder and make it impossible to arrive at a satisfactory solution of the problem.

Yesterday's Sunday Post-Dispatch was a record breaker. Its circulation was larger than that of any other St. Louis paper. Its total advertising was 100 columns, as compared with 92 columns in the Sunday Republic. Of the advertisements of our local merchants it contained 68 columns, exactly the same as the Sunday Globe-Democrat. The Republic contained 49 columns. In the corresponding issue of the Sunday Post-Dispatch last year there were 66 columns, an increase this year of 33 1/3 per cent. Of reading matter the Sunday Post-Dispatch contained 181 columns, the Sunday Globe-Democrat 158 columns and the Sunday Republic 134 columns. In readability and in the beauty of its pictures the Sunday Post-Dispatch was without a rival.

MR. COOK AND MR. MAFFITT.

Hon. Sam B. Cook of Mexico, Chairman of the Executive Committee of the Democratic State Central Committee, is a conspicuous representative of the conservative free silver wing of the Democratic party of Missouri. He voted for a State Convention at the recent meeting of the State Committee. He has opposed the calling of a convention independent of the State Committee, but is in favor of all legitimate means of securing a State Convention through the regular channels. He attended the recent conference of County Chairmen at the Planters' Hotel in this city, and participated in its proceedings. He warmly endorsed the decision of that conference to secure the evidence which Mr. Maffitt required as a prerequisite to his calling another meeting of the State Committee. To the Mexico correspondent of the Post-Dispatch Mr. Cook said on Saturday:

When Secretary Britt receives from a majority of the county chairmen the requests to Chairman Maffitt to reconvene the State Committee, Dr. McAllester of Boon, who is Chairman of the Conference Committee, and Secretary Britt will present the requests to Mr. Maffitt. The conference of County Chairmen, represented nearly 20,000 Democratic majority and they accepted in good faith Mr. Maffitt's proposition to call a meeting of the committee and vote for a convention when ready to do so by a majority of the county chairmen. The majority and more has already been secured and several chairmen where silver sentiment is strongest have not yet reported.

I have no doubt Mr. Maffitt will convene the committee in a few days and vote for a convention in conformity with his agreement. The convention should be called as early as possible about Aug. 15. The financial question is too grave an issue and its importance is being too seriously considered by the people to permit of any action which leaves of arbitrary power on the part of those intrusted with party leadership.

It will be seen from this that in spite of Mr. Maffitt's circular to the County Chairmen, the object of which was to delay the convention if it could not be defeated, Mr. Cook has sufficient confidence in Mr. Maffitt to pledge and convene the committee when the petition of the County Chairmen is submitted to him by Dr. McAllester and Mr. Britt.

It is to be hoped that Mr. Cook's confidence in Mr. Maffitt's good faith will be justified by the result. If he has not already received them, Mr. Britt will within a day or two have the signatures of a considerable majority of the County Chairmen. He and Dr. McAllester, the chairman of the conference, will place this petition with its signatures before Mr. Maffitt, and demand that in accordance therewith and in fulfillment of his promise, he will call the State Committee together. This demand will probably be made before the end of the week and we shall then see whether or not Mr. Cook's friendly view of Mr. Maffitt's intentions is correct.

DELUDED MR. HARRITY.

Chairman Harrity of the Democratic Committee gave excellent proof of his unfitness for his place when he congratulated the party in a public interview on the subsidence of "the silver craze" as a promise that the money issue would be relegated to the rear and the party could on that account win in the next contest.

Mr. Harrity in this interview did not speak as the head of a great party pledged to stand by its principles and carry out the will of the people, but as the representative of a wing of the party bent upon carrying its own selfish ends regardless of the party's interests or the people's will. He merely parroted the cry of the Wall street plutocrats and their allies who are using the Democratic machine and the Federal patronage to suppress the will of the majority.

It is possible that Mr. Harrity believes what he says and that from his point of view in the atmosphere which surrounds him he may think the silver sentiment is subsiding. It is possible that he may take the apparent triumph of the machine and the Federal officeholders in committees and conventions as proof of a change in popular sentiment. If so, he is grossly deceived. The sentiment is rising, not falling, and it is being strengthened by the very things which Mr. Harrity and his sympathizers regard as successes.

If Mr. Harrity is a true prophet, if the Democratic party relegates the money question to the rear and goes to the country on other issues, it will not be a matter of congratulation but of regret.

it will be useless to hold a Democratic convention and Mr. Harrity on his successor will lead a forlorn hope.

WELL KNOWN ST. LOUISANS.

Dr. Jules F. Valle.

Commenting upon the modification of the bond contract, the New York World makes the strong point that in releasing the syndicate from the obligation to import the remaining gold the Government has consented to weaken the position of the Treasury. The object of the bond issue and contract was not only to stop the exportation of gold but to secure more gold. By permitting the syndicate to draw on the domestic reserves of gold outside the Treasury the probability of fresh invasions upon the Treasury has been greatly increased.

The World then asks: "If the gold reserve is so safe and the contract was so easily modified, why not have the concession made the other way? If half the service contracted for was enough to save the country, why issue more than half the bonds?"

The point is well made and its significance is strengthened by the facts of the bond issue. The Government, not the syndicate, had the little end of the bond bargain. The Government was victimized. The bonds which were sold for 104 now bring nearly 124. The syndicate has made not less than \$3,000,000 out of its bargain. Yet the Government is held up to the letter of its obligation and the syndicate is released from half of its obligation.

Could there be a more striking illustration of the results of putting the national finances under the control of outside "financiers?"

While women inspectors in the Health Department might do much toward keeping the alleys clean, women in the homes of St. Louis could also do a great deal toward the prevention of fifth accumulations in those thoroughfares.

Were established in the South in
the Past Three Months.

CHATTANOOGA, Tenn., July 1.—The Trademan of Chattanooga, Tenn., has issued its quarterly report of new industries established or incorporated in the Southern States for the quarter year ending June 30. The total number reported is 624, as against 602 for the same period in 1893, and 779 for 1894, showing that the industrial development of the South is being well maintained. The great interest, which is the principal item in the building of cotton mills is shown in this report by the fact that 141 new textile plants are now in progress, while 120 others, which have been organized, are breaking ground and many are nearly ready to begin manufacturing. This total of 101 new mills include 26 cotton mills, 16 woolen mills, 15 cotton-ginning mills, 15 flour mills, 15 phosphate companies and three brewerianas.

The wood-working industry is credited with 117 new plants, every Southern state having one or more, leading with the 1st, Georgia, having sixteen, Arkansas and North Carolina each having fifteen, Alabama and Mississippi fourteen, Louisiana thirteen, each having ten. The miscellaneous or unclassified new industries are eighty-four in number and complete a total of 624, which is the same as in view of existing and past conditions, eminently satisfactory.

NEW JERSEY JOKERS.

They Are Having Fun at the Expense of Christian Endeavors.

NEW BRUNSWICK, N. J., July 1.—People here are having lots of fun at the expense of the Society of Christian Endeavor. The town pump will continue year after year. Endeavor has concluded to stay the public thirst during the hot months. After vainly trying to get a big tank, some one has been able to find a barrel, and to have it brought thoroughly cleaned. It was properly fitted out and set up in business on the square as a ice-water headquarters. Within a few days there were no longer quit patronizing it, except men with red noses and experience to inebriety, who flocked to it as a hole in a rock. The public in the village, being no body in town knew that the barrel was disseminating a whisky flavor, and the whole community is agog over it.

FOR KNEE PANTS.

Beginning of the Crusade Against the Long Trouser of the Present.

Special to the Post-Dispatch.—NEW YORK, July 1.—A number of reformers have issued a pronouncement against trousers and in favor of knee-breeches for general use. All the signers to the paper are cyclers and they declare that the wheel is going to sound the death-knell of trousers as far as the public is concerned. Every man ride a bicycle. One advantage of the proposed abbreviation would be the elimination of the unsightly spectacle of trousers bagged at the knees.

Eulogizing Roosevelt.

NEW YORK, July 1.—The Rev. Ferdinand L. Clegg, of the First African Methodist Episcopal Church, spoke last night on closing saloons on Sunday. He said in part: "Since Theodore Roosevelt was made Police Commissioner the movement to close saloons has spread throughout New York and bids fair to hasten its approach. Mr. Roosevelt is a hero of the Parkhurst type who bristles with health and has his steel in his nerves and backbone enough for two men. The circumstances are such here that the performance of simple duty in the execution of his office is supreme heroism. It requires more than ordinary pluck for a man to stand up before 9,000 saloonkeepers, backed by \$30,000,000 of beer and whisky money."

Burglars' Revival.

NEW YORK, July 1.—There are more burglaries committed under the present police regime than have been known in New York before. Evidently the burglars have made up their minds that they have better chances now that Byrnes is out of business.

MONOPOLIZED BY WHITE TRASH.

The End of the Afro-American Steamship Scheme.

DENVER, Colo., July 1.—The Rev. D. E. Johnson, pastor of the Church of the Presidents, last night announced to his congregation that the Afro-American Steamship Co. had gone into liquidation and that subscribers to the steamship would not be allowed to liberate their money returned on application. "The same course," he said, "would be adopted wherever there were steamship companies."

The scheme was sprung over two years ago and caught the fancy of the colored who were assured that they could command a fortune in the world if once obtained a footing on the seas. Mr. Johnson now says that the trade has been monopolized by white trash. There is no way of vindicating the innocent devotees of the ambitious Afro-Americans and it is said there is little hope of the fund being restored to the subscribers in out of the way places.

Home-Seekers' Excursion.

TO THE WEST, JULY 5.

THE MISSOURI PACIFIC RAILWAY will sell tickets July 5 to Sedalia at a rate of \$7 for the round trip, and to certain points in Southwestern Missouri and Southeastern Kansas. Tickets to be good going and returning via Pleasant Hill, and only on train No. 3 leaving St. Louis 8:30 p.m., return limit of twenty-four hours. For further information inquire at City Ticket Office or Union Station.

IS HE A MINISTER?

A Prominent Couple Married by Dr. Clark Would Like to Know.

CINCINNATI, O., July 1.—An interesting question was raised here yesterday with regard to the fact that the wife who has caused such a furor in the Friends church is about to himself to be baptized. He was deposed from the ministry by the meeting of ministers and elders, and the matter was submitted to the monthly meeting of the annual meeting. There are now two factions—one claiming that Dr. Clark is a heretic, the other that he is not. The question is most interesting in view of the fact that a prominent young couple was united in marriage by him last week, and the assertion that he is not a minister places them and him in an embarrassing position.

Should Wives Promise to Obey? Special to the Post-Dispatch.

NEW YORK, July 1.—At the Academy of Music yesterday Rev. Thos. Dixon, Jr., took off for them, "Should women promise to obey their husbands in the marriage ceremony?"

He said in part, "During my whole life I have minded the truth, and the whole statement of the impudent truth, for it is so bold and unembellished that it must have been written by an utterly unimaginative man."

PAY YOUR PERSONAL TAXES. Special to the Post-Dispatch.

PHILADELPHIA, Pa., July 1.—While Warwick Young, James Mosby, Joseph Wilson and Alex Grungrande, laborers, were in hospital, suffering from smallpox, for private circulation by the executors of a man who for many years was a specie of companion to the royal family. A paper has in the works a series of portraits, particularly, from which it would seem that Queen possesses nearly £35,000,000, as nearly as it can be told.

The figures are tabulated in a strikingly concise and clear way, and the whole statement bears the impress of truth, for it is so bold and unembellished that it must have been written by an utterly unimaginative man.
